

FONBO LLC

AbsoluteLanguage Series (P900)

How to Install

This is a J2ME application. Use the PC Suite that comes with the phone to install the application.

How to Run

From the application launcher, tap the application icon to start the program.

Menu Screens

After the program is started, the menu screen appears.

Rotate the jog dial up or down to scroll up or down the list.

Press the jog dial inward to select an item.

Alternatively, you can use the onscreen joystick to scroll the list or select an item.

Phrase Lists

After two levels of menu screens, a phrase screen will appear.

Rotate the jog dial up or down to scroll up and down.

Press the jog dial forward and backward to see the complete phrases.

If there is a speaker icon associated with the phrase, press the jog dial inward to listen to the phrase.

Use the onscreen button to access the menu.

Requirements

0.5 MB of free memory
