# AskKey Pro

Thank you for your using AskKey Pro.

<u>1. Introduction</u>

AskKey Pro gives users easy and quick access to ASCII values, HTML notations, Windows key codes and Unicode symbols. Users have access to more than 1,000 Unicode symbols, which can be exported as graphics. Or use Unicode symbols as styled text.

2. Installing AskKey Pro

Double-click on setup.exe in the delivery package initiate the installation process. If your computer doesn't have it yet, AskKey Pro will first attempt to install .NET Framework 4, and you will be prompted for confirmation. (See Screenshot 2.) Then you will proceed to install AskKey Pro. You can use Setup.msi to install the application as long as you already have .NET Framework 4, which AskKey Pro requires. You can find the application at the following path: C:\Program Files \MacHouse\AskKey Pro.

3. Uninstalling AskKey Pro

Open Control Panel and choose Uninstall a program. Then double-click on AskKey Pro to initiate the uninstalling process. (See Screenshot 3.) You can also use the original setup.exe or setup.msi to uninstall the application. (See Screenshot 4.) Additionally, when it starts up for the first time, the application will create a folder, which you need to manually trash. You can locate it easily by opening Preferences and navigate to the System tab.
