

Camping Helper© v1.2 User Guide

Welcome to Camping Helper from GopSoft. Make preparation for camping and other trips much easier!

NEVER FORGET STUFF

Do you leave on a trip only to find you've left things behind and have to waste money buying double supplies! Never again! If you use Camping Helper, you can create a *personalised* checklist of items on your Palm OS 3.5+ PDA.

CONTROL YOUR SUPPLIES

GopSoft has created an initial list of items that may be useful, but you have **full control** over the items on your list. Add, delete and edit all list items.

Installation:

The following files are included:

- | | |
|--------------------------|------------------------------|
| • CH12inst.prc | <i>Application installer</i> |
| • Camping Helper 1.2.pdf | <i>This document</i> |
| • licence.pdf | <i>legal stuff</i> |

HotSync the CH12inst.prc file to your handheld using your Palm desktop install tool. The first time you launch Camping Helper, the necessary files unpack before launching the application.

NOTE to Registered users! If you've discovered this update by chance, you can install the new version. BUT when a message says "**A database called camping-data already exists. Do you want to overwrite it?**" appears, you should answer CANCEL for this item, or your items checklist will be overwritten. You should have been contacted by GopSoft prior to this release and received the updated executable. If you feel you have been overlooked, please send an email to:

support@gopsoft.net

Shareware:

Camping Helper is Shareware, but very inexpensive (US\$5.00). Not much to pay for a program that helps make a good trip a great one! Please try the software for 7 days. After that, it will stop working. You can register Camping Helper at the location you downloaded it from. This will remove the nag screen and the 7 day limit.

System Requirements:

Operating System:	Palm OS v3.5 or better
Memory required:	Approximately 130 kb (increases with more database items).

PDA:

Any with OS 3.5+ colour, grayscale or B&W

Using Camping Helper:

Items	Yes	No	Need
Tent	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Stove	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Pegs/ropes	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Groundsheet	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Air Beds	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Pillows	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Stove	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Matches	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Gas bottle	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Buttons: Edit Items, New Trip, Trip Info

Camping Helper allows you to create lists of items, and places a text box against each item to reflect whether you have that item, don't want it, or have to get it. New Trip clears all checkboxes and tapping Edit items and Trip Info takes you to screens described below.

Edit Items:

Items Editor

Item

- Shovel
- Sleeping Bag
- Groundsheet
- Stove
- Matches
- Flashlight
- Fishing gear

Item:

Fishing gear

Buttons: < + > X ✓

The default "Supplies" screen contains the list of items in the database. This screen allows you to edit items or add new ones. The preinstalled database contains some items to get you started. To create a new item, tap on the + button and write an item name on the item text line. Then tap the Û button, or tap + again to keep adding records. The < and > symbols move back and forwards between records and the x button deletes a record (you get 1 warning).

Trip Info

Where: Bimbi Falls

Type: ▼ Backpacking

Start: 11/19/04 Finish: 11/25/04

Things to See and Do

Waterfalls, fishing (trout), hiking, caving, relaxing

Buttons: < + > X ✓

This screen allows you to record trip details, reminders of what to visit etc. You can add more trips using the same method as adding items described above. You can also tap the note icon to add other notes about the trip.

Trip Summary		
Where	From	To
Bimbi Falls	11/19/	11/25/
Poplar Park	1/1/05	1/9/05
Kyosha Reserve	3/12/0	3/14/0
Wombeyan Caves	5/14/0	5/22/0

Add/Edit Trip

Trip summary screen: This screen was added due to user requests and allows you to quickly view and access different trips. Existing trip records can be selected by tapping its table line, or the add/edit button.

New In Version 1.2

- Added trip summary screen.
- Added notes screen.
- Changed button appearances.
- Cleaned up internal workings and improved formatting.

New In Version 1.1

- Interface updated as some users stated some buttons were hard to see.
- Trip screen added to allow information to be added about future trips. The number of trips you can add is only limited by your PDA memory.
- Database methods fine tuned to speed operation up.

Other uses:

The lists created by this program are really only limited by your imagination. You could also use it for shopping list, gifts, to do list etc. Thank you for your interest in Camping Helper!
