# Geolocation by IP Address

## The IP Intelligence Solution

- Display native language and currency
- Redirect web pages based on geographical region
- Digital Rights Management
- Prevent password sharing and abuse of service
- Reduce credit card fraud
- Web log statistics and analysis
- Auto-selection of country on forms
- Filter access from countries you do not do business
- Geo targeting for increased sales and click-through

IP2Location™ is an award-winning solution to help you to identify visitor's geographical location i.e. Country, region, city, latitude, longitude, ZIP code, ISP and domain name using a proprietary IP address lookup database and technology without invading Internet user's privacy. Our databases are being used by many Fortune 500 companies. Download your free copy of demo database today!

Our products will unleash the potential of your website. Innovative developers have been implementing the following projects using the IP2Location™ range of products.

**IP2Location™ IP-Country Database [DB1]**  
Enables solution to determine the country of any IP address in a few simple steps  
Price: \$49/Year

**IP2Location™ IP-Country-ISP Database [DB2]**  
Enables solution to determine the country and the Internet Service Provider (ISP) or the company of any IP address  
Price: \$199/Year

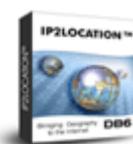

**IP2Location™ IP-Country-Region-City Database [DB3]**  
Enables solution to determine country, region or state, and city of any IP address  
Price: \$199/Year

**IP2Location™ IP-Country-Region-City-ISP Database [DB4]**  
Enables solution to determine country, region or state, city and ISP of any IP address  
Price: \$349/Year

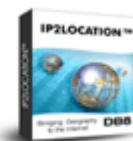

**IP2Location™ IP-Country-Region-City-Latitude-Longitude Database [DB5]**  
Enables solution to determine country, region or state, city, latitude and longitude of any IP address  
Price: \$349/Year

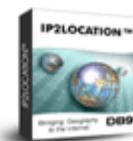

**IP2Location™ IP-Country-Region-City-Latitude-Longitude-ISP Database [DB6]**  
Enables solution to determine country, region or state, city, latitude and longitude of any IP address  
Price: \$499/Year

**IP2Location™ IP-Country-Region-City-ISP-Domain Database [DB7]**  
Enables solution to determine country, region or state, city, ISP and domain name of all IP address  
Price: \$499/Year

**IP2Location™ IP-Country-Region-City-Latitude-Longitude-ISP-Domain Database [DB8]**  
Enables solution to determine country, region or state, city, latitude, longitude, ISP and domain name of any IP address  
Price: \$649/Year

**IP2Location™ IP-Country-Region-City-Latitude-Longitude-ZIPCode Database [DB9]**  
Enables solution to determine country, region or state, city, latitude, longitude and zip code of any IP address  
Price: \$499/Year

**IP2Location™ IP-Country-Region-City-Latitude-Longitude-ZIPCode-ISP-Domain Database [DB10]**  
Enables solution to determine country, region or state, city, latitude, longitude, US zip code, ISP and domain name of any IP address  
Price: \$799/Year

# Geolocation by IP Address

## The IP Intelligence Solution

### IP2Location™ Application

IP2Location Application (AP) is a free standalone software that enables end-users to detect country, region, city, latitude, longitude, ZIP code, ISP and domain name by using an IP address. It is using IP2Location .BIN database as internal lookup reference and does not required external network connection. IP2Location Application is available in several platforms such as Windows (GUI or command line) or Linux/Unix (Perl). IP2Location .BIN database is available by subscription.

Order Now

#### SOFTWARE FEATURES:

- Support Single IP Address as Input
- Support Bulk IP Addresses in Input File
- Export Results to Screen or to Output File
- Export Results to CSV (comma delimited), TAB (tab deminited) or
- Support IP2Location DB1 to DB10 Binary Format
- No Programming Skills Required

### IP2Location™ IP-Country Web Service

#### SOFTWARE FEATURES:

- No database to download, to install or to upgrade in the server side
- Support HTTP queries up to 100,000 times or 1 year (which one comes first)

Order Now

### IP2Location™ ActiveX/COM DLL

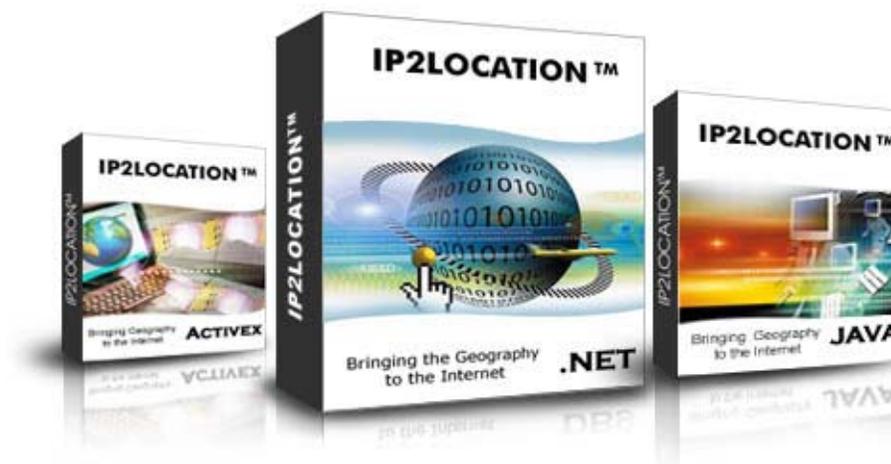

Support unlimited real-time IP-to-Country query using Microsoft® ActiveX/COM. No database connection required. It also works with Stand-alone Windows program. Registration key valid for all DLL released within one-year after registration. Registered version does not have 5 second delay and supports up to ~100000 queries/second.

Order Now

#### SOFTWARE FEATURES:

- Unlimited real-time query
- Immediate Registration Key
- Updated version
- No database connection required

### IP2Location™ .NET Component

IP2Location .NET Component is a software development component and data solution for .NET Framework, that enables you to discover in real-time, where your web visitors are coming from by IP address. You can then dynamically tailor the content of your site based on your visitors country, region, city, latitude, longitude, ZIP code, ISP and domain name. This component is using a fast and self-contained lookup engine.

Order Now

### IP2Location™ Java Component

IP2Location Java Component is a software development component and data solution for Java platforms, that enables application to discover in real-time, where your web visitors are coming from by IP address. Developers can then dynamically tailor the content of Web site based on visitor's country, region, city, latitude, longitude, ZIP code, ISP name and domain name. This component is using a fast and self-contained lookup engine with local BIN file database. No remote query or database connection required. The IP2Location Java Class Libraries may be used on any platforms with a Java Virtual Machine, including Windows®, LINUX, MacOS, Solaris, HP/UX, AS/400, OS/390 and many others to integrate geolocation by IP address into internet applications, websites or custom Java applications with JDK 1.1 or above.

## ZIPCodeWorld™ Desktop

ZIPCodeWorld™ Desktop is a standalone Windows application that performs several ZIP code and postal code search functions such as data query, distance calculation and store locator in one simple interface. The software can be used together with all ZIPCodeWorld™ and PostalCodeWorld™ databases in Microsoft® Access format.

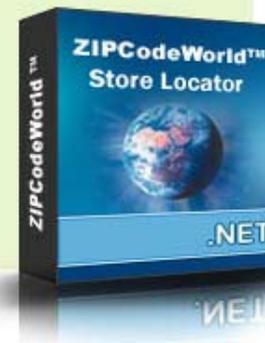

### ZIPCodeWorld™ Desktop Software Description & Features:

- Look Up ZIPCodeWorld United State ZIP Code Database
- Look Up PostaCodeWorld Canada Postal Code Database
- Look Up PostaCodeWorld Mexico Postal Code Database
- Find ZIP Codes Within a Radius
- Find Your Nearest Locations
- Measure the Distance between Two ZIP Codes
- Quick Export
- Easy to Use Interface
- Wildcard Searching
- Free Support
- Immediate Download

### ZIPCodeWorld™ Store Locator .NET Features:

- Secure Administrator Control Panel
- Limit Results by Radius and Records
- Display General Store Details and Custom Fields
- Sort Results by Distance, Names and City
- Support United States and Canada Postal Code
- Bulk Store/Dealer Batch Import
- Support MapQuest®/Yahoo®/Google® Location Maps & Directions
- Support Miles and Kilometers Measurement
- Support Preferred or Hidden Stores
- Support .NET Framework 1.1 and 2.0
- Support Access, MS-SQL or mySQL
- Drag and Drop ASP.NET Control
- Fully Customizable Interface

## ZIPCodeWorld™ Store Locator .NET

ZIPCodeWorld™ Store Locator .NET is a store locator control for all .NET developers. Your own United States or Canada store locator service can be up and running within minutes in just a few simple installation steps.

ZIPCodeWorld™ Store Locator .NET provides a drag-and-drop control for ASP.NET projects. The control allows your customers to find dealers, stores, or locations nearest them by ZIP code. The results show each location's distance from your customer, and even maps.

Download and install the evaluation copy immediately. The evaluation copy will only support 10 stores or dealers in every query. The latitude and longitude database in the package is also incomplete. Registered version will support unlimited number of stores with the complete ZIP Code database updated monthly.
