**Complete Certification Training Solutions**

## **Study Tips**

*This product will provide you with questions and answers carefully compiled and written by our Expert Senior Certified Staff. Our practice questions are designed to help you learn the concepts behind the questions rather than be a strict memorization tool.*

### **Important Note:**

### **Please Read Carefully**

*Repeated readings of our Pass-Guaranteed.com Practice Exam will increase your comprehension. We constantly add to and update our Practice Exams with new questions, answers and explanations, so check that you have the latest version of this Practice Exam before you take your exam.*

*For security purposes, each PDF file is encrypted with a unique serial number associated With your Pass-Guaranteed.com account information. In accordance with International Copyright Law, Pass-Guaranteed.com reserves the right to take legal action against you should we find copies of this PDF file distributed to other parties.*

### **Update Notifications (Latest Version)**

*We are constantly reviewing our products. New material is added and old material is revised. Free Updates are available for 180 days after purchase. If you purchased a bundle, you will have Free Updates for 1 YEAR!*

*You can signup to our newsletter for instant notification whenever an update is released by becoming a Pass-Guaranteed.com member at: <http://www.pass-guaranteed.com/log.htm>*

*By becoming a Pass-Guaranteed.com member, you also get a chance to win a FREE Practice Exam of your choosing. We give away 3 Pass-Guaranteed.com Practice Exams every week to 3 lucky winners.*

### **Pass-Guaranteed.com Product Specials**

*Pass-Guaranteed.com Custom Bundle Requests, cover all Pass-Guaranteed.com Products!!! You can visit our Special Bundle Discounts from Pass-Guaranteed.com or make your own Custom Bundle Request with Pass-Guaranteed.com here: <http://www.pass-guaranteed.com/bundles.htm>*

***Pass-Guaranteed.com Custom Bundle Request Form let's you create your own Bundle Of Products!!!** You can select and group any of our products for your Custom Bundle and we will give you up to a **50% Discount** on your Custom Bundle Package. This includes our [Practice Test Questions](#), [Online Course Tutorials](#), [Study Guides](#), [Lab Scenarios](#) and our [Certified Online Instructor](#) service.*

*Please visit: <http://www.pass-guaranteed.com/custom-request.htm> If you would like to purchase a Custom Bundle from Pass-Guaranteed.com.*

**QUESTION: 1**

A report runs, and is 433 pages long, with 19,010 rows. Many of the rows are blank. The report author uses a filter function to filter nulls, and runs the report again. The result is 143 pages, with 6273 rows, and none of the rows are blank.

What filtering style did the report author decide to use?

- A. Conventional
- B. Dimensional
- C. Relational
- D. Functional

**Answer: B**

**QUESTION: 2**

What is a key difference between the total function and the aggregate function?

- A. The aggregate function can only summarize within a set, and the total function can accept separate members.
- B. The aggregate function is dimensional, and the total function is relational.
- C. The aggregate function will summarize only the currentMeasure, and the total function will summarize any specified measure.
- D. The aggregate function follows the rollup rules of the measure defined in the data source, and the total function adds the total of the specified measure.

**Answer: D**

**QUESTION: 3**

A report author uses an OLAP cube to create a crosstab with Revenue as a measure, the Product line level in the rows, and the year members (2004-2007) in the columns.

How can the report author efficiently determine the difference in revenue between the years 2005 and 2006?

- A. Determine MUNS for the years 2005 and 2006, and then create an expression using the MUNS.
- B. Create a new column as a query calculation, and create the dimensional expression [2006]-[2005].
- C. Create a set of the 2005 and 2006 members and aggregate it.
- D. Ask the modeler to create a calculated category in Transformer and then use it directly.

**Answer: B**

**QUESTION: 4**

The following expression is used to focus OLAP data in the rows of a report:

filter([sales\_and\_marketing].[Order method].[Order method].[Order method type], [Revenue]>150000000).

Revenue	2004	2005	2006	2007
Telephone	178,793,580.36	107,160,284.09	37,199,842.80	17,832,073.81
Sales visit	101,072,721.10	79,721,524.37	73,918,652.38	55,481,936.15
Web	473,771,464.65	881,315,747.68	1,339,714,172.77	1,017,434,523.30
E-mail	95,402,796.21	44,318,886.43	23,701,042.57	16,420,318.95

Which of the following statements describes the purpose of the expression?

- A. To return the set of members whose revenue is less than 150000000 for any year.
- B. To return the set of members whose revenue is greater than 150000000 for the sum of the opposite edge.
- C. To filter the cell values by subtracting 150000000 from the revenue for each year and order method type.
- D. To filter the years to show those having revenues greater than 150000000 by order method type.

**Answer:** B

**QUESTION: 5**

What dimensional function is used to return the members on the level below the Product line level?

- A. Tail
- B. Lag
- C. Descendants
- D. BottomCount

**Answer:** C
