An Overview of Directory Scope

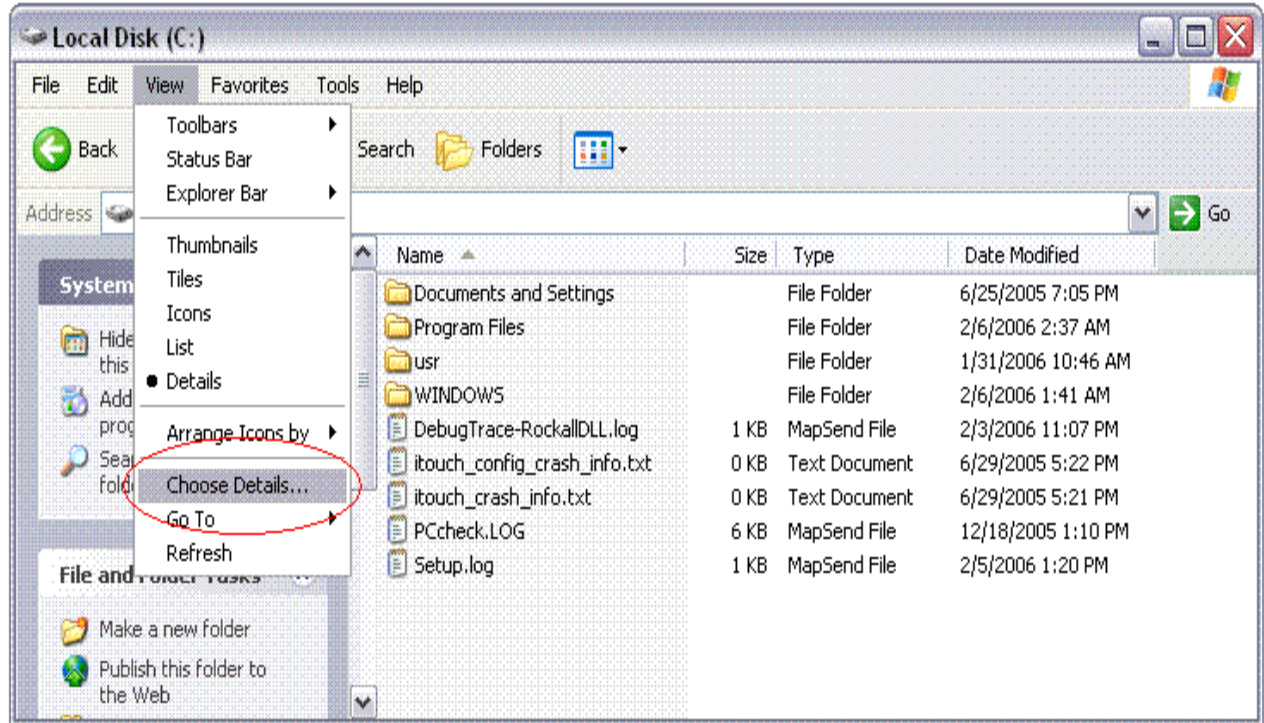

Introducing the World's Fastest and Most Advanced Directory Size Software Program. Directory Scope Integrate directly with Windows Explorer to give you the size of you files and directories at your fingertips. Plus, it offers the ability to see the size of files and folders across mapped drives. Directory Scope saves you more time finding where all that hardrive space went than any other software program available on the market!

Installation and Software Usage Notice

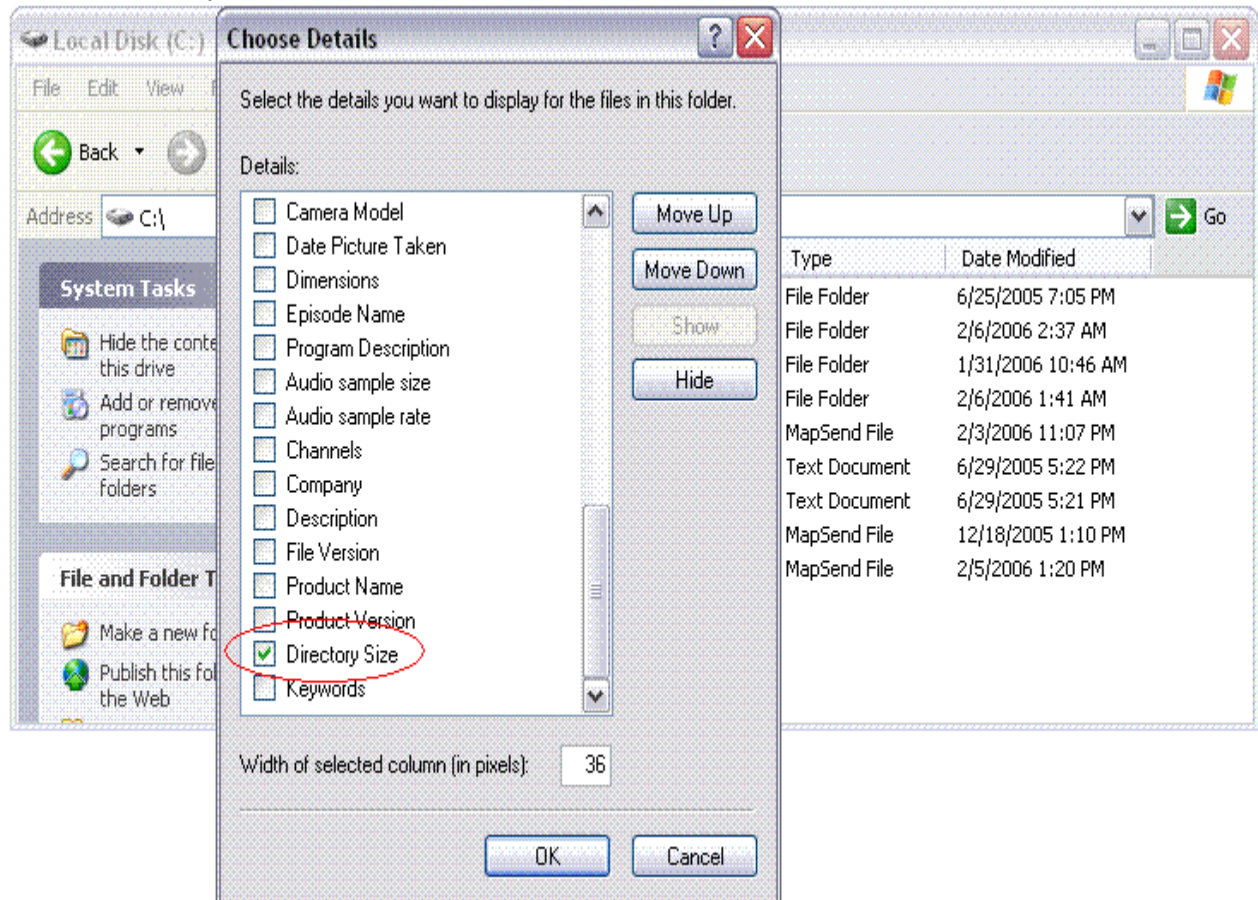

1. In order to avoid many compatibility issues, please close all other software and utility applications including virus scans and instant messaging software.
2. Launch the Directory Scope installer and follow the instructions.
3. Once the Installer has completed open Windows Explorer. If you are viewing the contents of a drive or a folder with subfolders in "Details" view you should see a collum labled Directory Size

4. If the Directory Size column does not appear click the "View>Choose Details..." Menu

5. select "Directory Size" and click OK.

6. You should now see the "Diretory Size" column as displayed is step 3

How to Uninstall

1. Launch "Add or Remove Programs" form the Control Panel
2. Select "Directory Scope" and click "Remove"
3. Follow the on screen instructions
