

Emergency Response Handheld Software

FireHose: FireHose provides hydraulic calculators so you can quickly calculate flow rate, friction loss, pump pressure, hydrant flows and more! Also contains a quick reference section with hydrant and sprinkler codes, flammable ranges and even NFPA inspection periods. **\$19.50**

FireLiner: FireLiner provides useful calculations and reference material for wildland firefighters: area and perimeter, production rates, engine typing, hand signals and safety procedures. **\$19.50**

FireAway: FireAway allows you to quickly determine expected fire behavior, so you can be prepared if a small fire suddenly becomes larger. Like the popular BEHAVE software, this gives you fuel moisture, probability of ignition, flamelength, rate of spread and more! Log your calculations and print them out as your official record of events. PalmOS or Pocket PC **\$49.00**

ShiftCal: Automatically create and view complex shift schedules with ease. Exports from your handheld device to your desktop calendar in seconds! **\$15.00**

Incident Command System (ICS): ICS and HEICS organization chart in an easy-to-navigate format. Better yet, descriptions and responsibilities of each position are included. You can even assign staff to the positions that you fill. **\$19.50**

Emergency Translator: Outstanding program containing common medical phrases needed during emergencies in English, Spanish, Portuguese, French and German. Also contains phonetic pronunciations! PalmOS or Pocket PC. **\$19.50**

EMS Scenario Training: 50 EMS scenarios organized in various sections to be used for EMS training and practice. Study anywhere with this handheld program! **\$9.50**

Ultimate Firefighter Bundle: Bundle has virtually all our software for the "Ultimate Firefighter". FireHose, FireLiner, FireAway, ShiftCal, ICS, Emergency Translator, Firefighter 1 study guide, S290 study guide, Hazmat Awareness study guide, Medical First Responder study guide. 37% off regular price! **\$119.00**
