QUESTION: 1

Which statement is true regarding the availability of drivers on the HP Print Server Appliance (PSA)?

- A. The PSA comes preloaded with only HP print drivers.
- B. The PSA comes preloaded with HP and non-HP print drivers.
- C. The PSA does not come with preloaded print drivers.
- D. The PSA does not support the loading of print drivers.

Answer: B

QUESTION: 2

What are the primary features of a Print Server Appliance (PSA)? (Select TWO.)

- A. provides print queue management using a web interface
- B. allows print jobs to be stored for private printing
- C. allows multiple devices to connect to the network via a single Jetdirect device
- D. spools print jobs for up to 50 print queues
- E. provides the option to encrypt printing data for increased security

Answer: A, D

QUESTION: 3

Which statement accurately describes device group management with HP Web Jetadmin?

- A. Network administrators can configure passwords that allow only those people who know the password to manage and modify device groups.
- B. Devices in a device group must be physically located in the same area.
- C. Devices are automatically placed into a default group when they are discovered.
- D. Devices are automatically placed into a user specific group when they are discovered.

Answer: A

QUESTION: 4

HP Web Jetadmin has the ability to push the RDA component from the Web Jetadmin host computer system to another on the network.

Which push operations are supported with the HP Remote Discover Agent? (Select THREE.)

- A. push from a Windows NT/2000 computer to a Linux computer
- B. push from a Linux computer to a Windows NT/2000 computer
- C. push from a Linux computer to another Linux computer
- D. push from a Windows NT/2000 computer to another Windows NT/2000 computer

Answer: A, C, D

QUESTION: 5

Which step can an administrator perform to speed up the discovery process of printers with HP Web Jetadmin?

- A. Configure ARP Table discovery as the only discovery method.
- B. Specify a smaller range of addresses instead of searching an entire subnet.
- C. Configure NetWare Bindery to query all NetWare servers instead of a select few.
- D. Leave HP Web Jetadmin at its default discovery settings.

Answer: B

QUESTION: 6

Which discovery mechanism is similar to the description below? You let people learn about each other by conversing with each other and interacting. Then you ask one person whom he or she knows about. You then visit each of those people and repeat this until you have learned about everyone in the room.

- A. Broadcast
- B. Specified Address Discovery
- C. IP Ranges Discovery
- D. ARP Table Discovery

Answer: D

QUESTION: 7

Which statement is true regarding HP Web Jetadmin and Novell print services support?

- A. Novell print services are not supported by HP Web Jetadmin.
- B. HP Web Jetadmin must be running on Windows NT/2000/2003/XP.
- C. HP Web Jetadmin needs the Novell NetWare Client software.
- D. HP Web Jetadmin requires a hardware upgrade to support Novell.

Answer: C

QUESTION: 8

Which statement accurately describes the device cache that results from the discovery process?

- A. New devices identified during the discovery process are added to the cache with a special symbol so that administrators can tell they are new.
- B. Devices that have been removed from the network since the last Discovery session are deleted from the cache.
- C. Clearing the cache removes all entries for devices that are no longer active in the network.
- D. Clearing the cache removes all devices in the cache.

Answer: D

QUESTION: 9

Which statement best describes the impact on performance for HP Web Jetadmin when using language packs in a multilingual environment?

- A. A single device cache is used for all languages.
- B. A separate device cache is used for each language pack installed.
- C. A separate copy of Web Jetadmin is installed for each language pack used.
- D. Language packs require periodic synchronization of the multiple device cache.

Answer: A

QUESTION: 10

Other than printers, which devices can be managed by HP Web Jetadmin? (Select THREE.)

- A. workstations
- B. Digital Senders
- C. ProLiant servers
- D. HP CDROM servers
- E. switches
- F. Print Server Appliances

Answer: B, D, F
