Complete Certification Training Solutions

Study Tips

This product will provide you with questions and answers carefully compiled and written by our Expert Senior Certified Staff. Our practice questions are designed to help you learn the concepts behind the questions rather than be a strict memorization tool.

Important Note:

Please Read Carefully

Repeated readings of our Pass-Guaranteed.com Practice Exam will increase your comprehension. We constantly add to and update our Practice Exams with new questions, answers and explanations, so check that you have the latest version of this Practice Exam before you take your exam.

For security purposes, each PDF file is encrypted with a unique serial number associated With your Pass-Guaranteed.com account information. In accordance with International Copyright Law, Pass-Guaranteed.com reserves the right to take legal action against you should we find copies of this PDF file distributed to other parties.

Update Notifications (Latest Version)

We are constantly reviewing our products. New material is added and old material is revised. Free Updates are available for 180 days after purchase. If you purchased a bundle, you will have Free Updates for 1 YEAR!

You can signup to our newsletter for instant notification whenever an update is released by becoming a Pass-Guaranteed.com member at: <http://www.pass-guaranteed.com/log.htm>

By becoming a Pass-Guaranteed.com member, you also get a chance to win a FREE Practice Exam of your choosing. We give away 3 Pass-Guaranteed.com Practice Exams every week to 3 lucky winners.

Pass-Guaranteed.com Product Specials

Pass-Guaranteed.com Custom Bundle Requests, cover all Pass-Guaranteed.com Products!!! You can visit our Special Bundle Discounts from Pass-Guaranteed.com or make your own Custom Bundle Request with Pass-Guaranteed.com here: <http://www.pass-guaranteed.com/bundles.htm>

*Pass-Guaranteed.com Custom Bundle Request Form let's you create your own Bundle Of Products!!! You can select and group any of our products for your Custom Bundle and we will give you up to a **50% Discount** on your Custom Bundle Package. This includes our [Practice Test Questions](#), [Online Course Tutorials](#), [Study Guides](#), [Lab Scenarios](#) and our [Certified Online Instructor](#) service.*

Please visit: <http://www.pass-guaranteed.com/custom-request.htm> If you would like to purchase a Custom Bundle from Pass-Guaranteed.com.

QUESTION: 1

Power to the NonStop S-series enclosures is set to the proper voltage by _____.

- A. configuring the power switch on the PMCU
- B. auto-ranging circuitry within the power supply
- C. ordering the proper part number for the voltage required
- D. ordering the power adapter appropriate to the voltage supplied

Answer: B

QUESTION: 2

A service processor _____. (Select TWO.)

- A. has interfaces to both the ServerNet hardware and the serial maintenance bus (SMB)
- B. runs its own independent operating system
- C. connects directly to system fans
- D. routes Guardian interprocess communications
- E. manages communications only to the processor within its enclosure

Answer: A, B

QUESTION: 3

ServerNet routing tables are generated based on the _____? (Select TWO.)

- A. SCF configured settings in the \$ZZKRN subsystem
- B. settings in the group ID switches
- C. number of routers between nodes
- D. manner in which the SEB cables are routed
- E. ServerNet topology configuration setting for the group

Answer: B, E

QUESTION: 4

In accessing a local process, users and user programs need only provide the name of the process.

Why?

- A. The file system translates the process name to a physical location using internal tables.
- B. All processes on the system keep tables that contain the names of all other processes on the system.
- C. A process in a processor can only communicate with other processes in the same processor.
- D. Processes do not communicate by name as they need to know the location of the process they are trying to access.

Answer: A

QUESTION: 5

Middleware is best described as _____.

- A. software an application programmer writes to access privileged procedures
- B. software between two application server processes
- C. the process Pathsend servers use for link requests in a Pathway environment
- D. software an application uses to receive services from an operating system

Answer: D

QUESTION: 6

Which statement is NOT correct if a system processor fails?

- A. Other processors can take over the failed processor's workload by activating copies of the processes that were running in the failed processor.
- B. The individual processor failure does not stop the system operation as a whole.
- C. The system needs to be cold-loaded once the failed processor is physically replaced.
- D. The NonStop S-series server uses the message system as the basis for an efficient failure detection mechanism.

Answer: C

QUESTION: 7

TSM workstations can be connected to either a public LAN or a dedicated TSM LAN.

Which functions are available to TSM when installed for use on the Public LAN? (Select TWO.)

- A. low level link
- B. service application
- C. EMS event viewer
- D. system start
- E. notification director

Answer: B, C

QUESTION: 8

What are advantages of a message-based operating system architecture? (Select TWO.)

- A. It supports system and peripheral expansion to match business growth.
- B. All messages are shared between processes using shared-memory buffers.
- C. Programmers can select different memory buffer sizes based on message priority.
- D. Applications do not need to be modified when adding new hardware or processes since the operating system translates device and process names into their physical locations.
- E. Additional networking software is not needed to extend the capability of the message-based operating system to a network of NonStop systems.

Answer: A, D

QUESTION: 9

To achieve application portability between UNIX/POSIX platforms and OSS _____.

- A. applications issue SQL standard calls, eliminating the need for conversion
- B. UNIX procedures are converted to corresponding POSIX procedures
- C. programs are converted using the UNIX to POSIX file conversion utility supplied with OSS
- D. applications issue calls to standardized application programmatic interfaces common to multiple platforms

Answer: D

QUESTION: 10

In a NonStop environment, a difference between a system and a user process is that a system process _____.

- A. can be stopped by a TACL stop command
- B. can be run only in a processor that was cold loaded, whereas a user process can be run in any processor
- C. cannot be stopped by a TACL stop command
- D. can be run only in processors 0 and 1, whereas a user process can be run in any processor

Answer: C
