QUESTION: 1
According to the current HP roadmap, which HP servers are based on industry-standard processors? (Select THREE.)

A. HP 9000 servers
B. HP Integrity servers
C. HP ProLiant servers
D. HP AlphaServer systems
E. HP Integrity NonStop servers

Answer: A, B, D

QUESTION: 2
How can StorageWorks MSL tape libraries extend the benefits of tape? (Select TWO.)

A. lowering the initial cost for tape solutions
B. automating the process of backup and restore for one or more servers
C. increasing the capacity of data that can be backed up without intervention
D. reducing the number of tapes required for backup of same amount of data

Answer: A, D

QUESTION: 3
In HP virtualization solutions, physical resources are pooled and shared across multiple applications and services, and are all controlled from a common management console.

Why is this important to Pass.com seeking a more agile infrastructure?

A. decreases systems purchase price and TCO
B. eliminates all downtime and optimizes scalability
C. minimizes scalability so IT can work more efficiently
D. eliminates the need for over provisioning and increases utilization rates

Answer: B

QUESTION: 4
Which description best characterizes HP Virtual Server Environment?

A. a solution that allows HP servers to run operating systems that are otherwise not supported

B. a solution that allows system managers to separate the management of the server from the management of the server components, allowing faster repairs when components fail

C. an HP service that allows customers to use servers that are physically located at HP and are managed by HP services, while appearing to be local to the users

D. a solution that combines intelligent management software with virtualization solutions to allow a dynamically growing and shrinking environment, based on business requirements

Answer: C

QUESTION: 5
During a BladeSystem sales process, you communicate the benefits of migrating to HP BladeSystem c-Class architecture.

Which features should you emphasize? (Select THREE.)

A. Systems Insight Manager
B. Thermal Logic technology
C. Virtual Server Environment
D. Insight Control Management
E. Virtual Connect architecture
F. Thermal Control Management

Answer: A, C, E

QUESTION: 6
Pass.com is currently running HP ProLiant servers with direct attached storage. They would like to migrate to a network attached storage environment to maximize storage capacity utilization, as well as to have a highly available environment.

Which approach should you suggest to ensure the customer is totally satisfied with the HP offering and its investment protection?

A. Use the HP DAS-to-SAN solutions to migrate to an MSA family solution.
B. Replace legacy servers and storage with the HP Adaptive Infrastructure solution.
C. Use the HP migration and mirroring solution to migrate to an HP EVA4000 disk array system.
D. Use HP OpenView Virtual Replicator to virtualize legacy DAS storage for maximum utilization.

Answer: D

QUESTION: 7
During a BladeSystem sales process, you communicate the benefits of migrating to HP BladeSystem architecture.

Which benefits should you emphasize? (Select TWO.)

A. Blades require less infrastructure management.
B. Blades use less power for reduced cooling costs.
C. Blades support plug-and-play replacement for easy maintenance.
D. A blade deployment is less expensive than a traditional server deployment.

Answer: B, C
