

KiBiz Demo - Getting Started

Request an Online Demo Tour of KiBiz by calling 800-946-2854

Download the KiBiz User Manual by [clicking here](#).

Windows Users - XP and Vista

Uncompressing the KiBiz Demo

The file that you have downloaded is a compressed file and you will need to use a utility program to uncompress it.

Windows has this capability built into the operating system.

Note: You can also go to one of the following websites and download a utility that will uncompress the file for you.
Stuffit Expander(<http://www.aladdinsys.com/expander>)
WinZip (<http://www.winzip.com>).

1. Right-click on the **kibizdemoXXpc.zip** file.
Windows displays a short-cut menu.
2. Click on **Extract All**.
The system displays the Extract Wizard.
4. Click on **Next**.
5. Select the location where you would like the files extracted.
6. Click on **Next**.
7. Click on **Finish**.

Note: Accept the default to **Open the extracted file location**.

Starting the KiBiz Demo

1. Double click on the **KiBizSystemX.X folder**.
2. Double click on **KiBizSystemX.X.exe**
3. Click on **Run**.

NOTE: It is a good idea to create a short-cut and copy to your desktop for easy accessing the KiBiz application.

Troubleshooting:

The KiBiz Demo is a stand-alone executable that does not need FileMaker to run.

If you are having trouble, take the following steps and then try to start the KiBiz demo again.

1. Delete any previous KiBiz demos.
2. Empty your recycle bin
2. Make sure that you have not copied the files inside KiBizSystem X.X to new folder.
3. When you open the demo for the first time, it may ask for system user name. Click OK to continue.

Mac Users - OSX

Uncompressing and Starting the KiBiz Demo

On most Mac's the .zip file will decompress automatically. If it does not, double click on the kibizdemoXXmac.zip file.

1. Locate the folder called KiBizSystem X.X
2. Inside the folder double-click on **_Open Demo**.
You will be prompted whether to open it with the application KiBizSystem XX.
3. Click **OK**.
The KiBizSystem Main Menu displays.

Note: The next time you click on Open Demo, it will find the application itself.

What is Ki?

Ki is Vital Energy.

Ki is the thread which connects all things.

Ki is verifiable, measurable, and without limits.

How does the vital energy flow in your Business?

Does your work flow process breakdown, get blocked, diffused, or scattered?

How can you enhance the work energy flow to be more efficient & effective?

The Ki Biz System can increase the vitality and energy efficiency of your entire business!

True strength is flowing energy and a willingness to blend energies.

With the fully integrated Ki business management system your business can be strengthened as all its parts are connected into one flow.
