-

## Main screens of Lexisgoo S80

Differ with the Pocket PC version, the Symbian Series 80 version includes only component:

## Instruction of functions

Word search: to search a word, simply type it in the **Text-entry** and then press **{Enter}** or navigate to "Go" button then press **{Enter}**. You also have the alternative of choosing the word from the list-box.

 You can use **{Ctrl + O}** to focus on the wordlist or **{Ctrl + P}** to go to meaning view

 You can search any word in meaning view by move the cursor to the word and press **{Enter}**

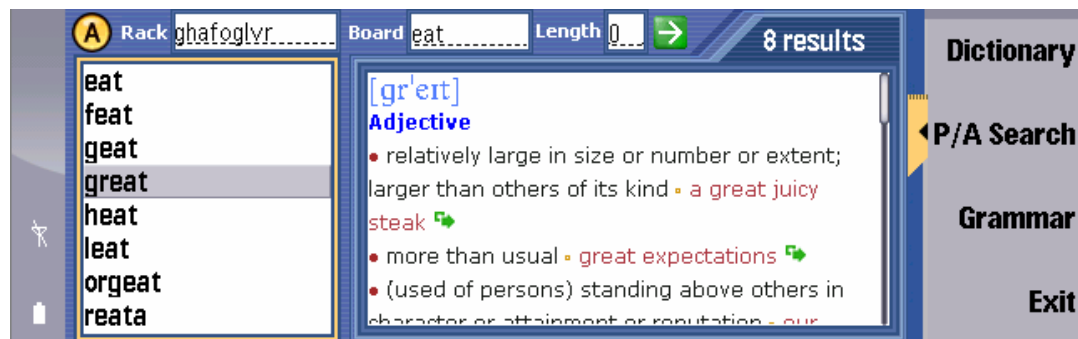

Searching for related words: For each word on the screen a link providing synonyms, antonyms and satellite word groups will be available. You can go to word-link icon  by press **{Ctrl + M}** from its paragraph then press **{Enter}**.

### Advanced Search:

**Pattern Search:** In addition to searching by the regular method, with Lexisgoo you can also search by pattern. For example:

- To search words including "**tion**", you type **{ \*tion\* }**
- The "**?**" mark stands for one character.
- The "**\***" mark stands for none or several characters.

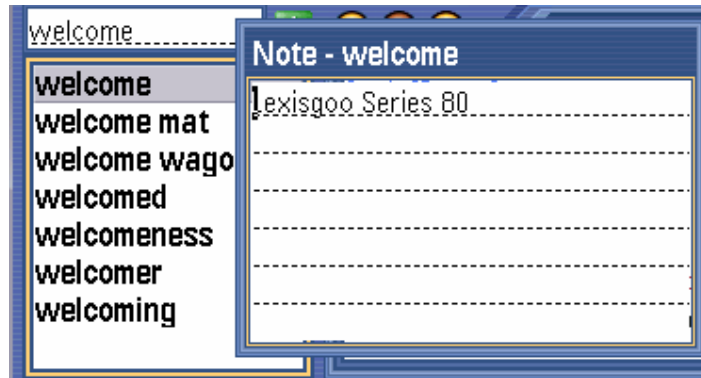

On the main screen, go to menu **Tools >> Advanced Search** then press **{Ctrl-P}** or Press **{Ctrl-A}** then **{Ctrl-8}**. Type the pattern in the textbox and press **{Enter}**. The picture will appear as below:

**Anagram search:** With this function you can search for words built up by the same letters. All letters from the "board" box will be included, while only one letter from the "rack" box will be included in each word. You can sort the result alphabetical or by length. On the main screen,

**{Ctrl-A}** if it shows picture as  then do nothing if the picture shows as  then **{Ctrl-8}**.

Adding notes: With this utility, you can attach comments to the in-task word. On the main screen press **{Ctrl-8}** then you can enter comment for intask-word as the beside picture :

 If a keyword contains a comment, the Notes Icon will change color to . To remove your comments, just show note-dialog again and then delete the contents and choose "**Save**".

If you want to view all words that have notes, just go to menu **Tools >> Notes** or Press **{Ctrl-N}** then you will see the screen as below.

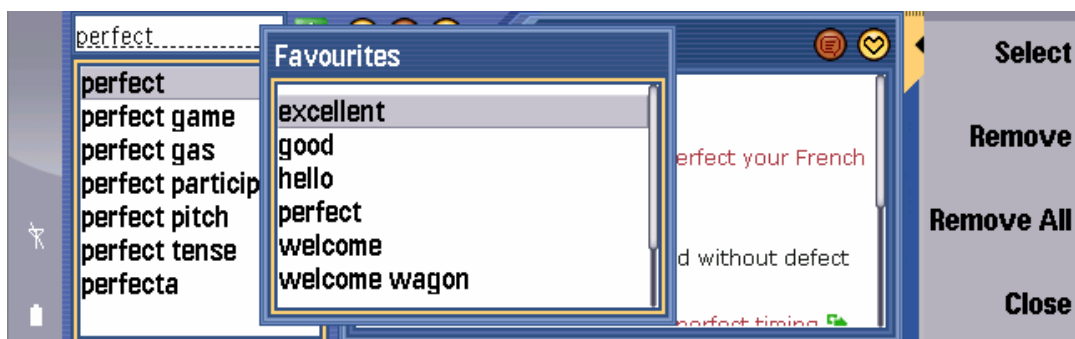

**Meaning:** to show definition of current word and return to main dictionary.

**Remove:** to remove notes of current word.

**Remove All:** to remove notes of all word and the list will be blank.

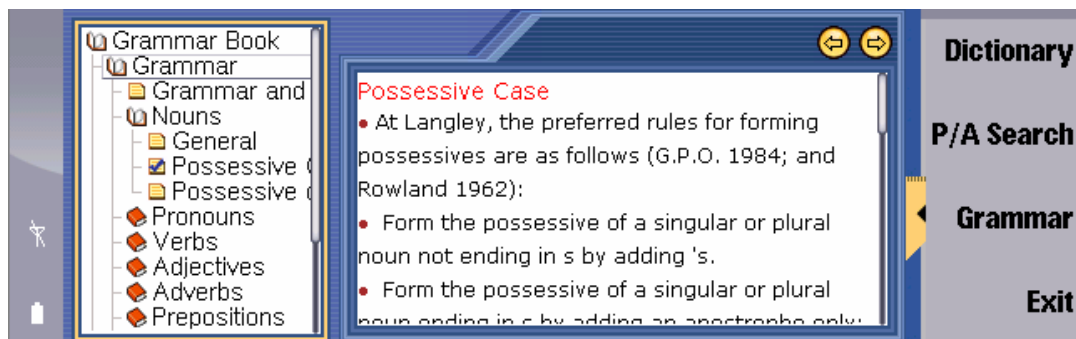

**Close:** to close this dialog and return main screen.

Using favorites list: To add a word to the favorites list, press **{Ctrl-9}**. To remove a word from the list, merely press **{Ctrl-9}** again. If you want to view favorites list, Press **{Ctrl-F}** then you will see the screen as below, in this dialog you can view definition, remove word from the list or remove all from the list.

Using history list: This is a list of the words previously looked up. At present, the list is limited to **1000** words and they are stored automatically. To access the list press **{Ctrl-H}**.

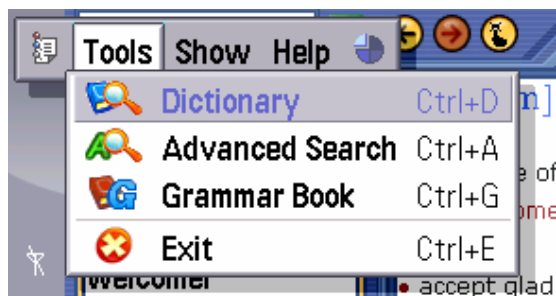

Grammar Handbook: This is a special feature. The Grammar, Punctuation, and Capitalization Handbook can be a useful assistant while writing. Here functions like checking irregular verbs, verb form and misplaced adverbs are offered. On the main screen, Press **{Ctrl-G}** then you will see the screen as below:

Menu Tools includes the following functions:

◆ Dictionary Show main dictionary

◆ Advanced Search To search for a special pattern such as "? \*" or Anagram.

◆ Grammar Book Show Grammar Handbook

◆ Exit To exit the application

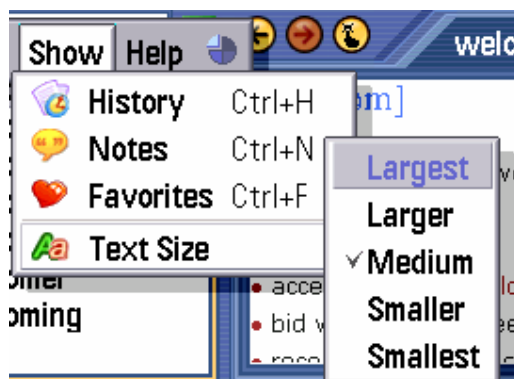

Menu Show: includes the following functions:

◆ History During every work session the system will automatically save all words looked up to the history list

◆ Notes To show all words that have notes attached.

◆ Favorites To show favorites list

◆ Text Size To change the text-size in the meaning view

Menu Help: includes the following functions:
