### (SAMPLE EXAM)

**Note: Sample Exam is for DEMO purpose only it may be out-of-date.  
Full Version contains up-to-date QAs as of real exams.**

<b>Exam Name:</b>	<b>AX 2009 Financials</b>		
<b>Exam Type:</b>	<b>Microsoft</b>		
<b>Exam Code:</b>	<b>MB6-818</b>	<b>Total Questions:</b>	<b>155</b>

**Question: 1**

You are the system administrator of dynamics AX 2009. Your company uses Microsoft dynamics AX 2009. In Microsoft Dynamics AX 2009, the Controller asks the Account to update an additional acquisition to an existing asset. Your company does not use the General ledger parameter option that allows multiple acquisitions. In order to update this transaction as an alternative to the above functionality, which transaction type must be defined for a journal to achieve this?

- A. In order to achieve this, Acquisition must be defined for a journal.
- B. In order to achieve this, Acquisition adjustment must be defined for a journal.
- C. In order to achieve this, Acquisition adjustment before posting must be defined for a journal.
- D. In order to achieve this, Acquisition adjustment after posting must be defined for a journal.

**Answer: A**

**Question: 2**

You are the system administrator of dynamics AX 2009. Your company uses Microsoft dynamics AX 2009. There is a photocopier in your company and the photocopier is already entered as a fixed asset. Now you company bought a sorter which must be mounted on the photocopier. In Microsoft Dynamics AX 2009, how can this be achieved?

- A. It's impossible to achieve this.
- B. In General Ledger parameters, select Allow Multiple acquisitions.
- C. Using the posting type Multiple acquisitions, enter the sorter in the General journal.
- D. For the sorter, post and acquire, create a new fixed asset. Using the Add asset function under Fixed asset/Periodic to add the sorter and photocopier assets.

**Answer: A**

**Question: 3**

You are the system administrator of dynamics AX 2009. Your company uses Microsoft dynamics AX 2009. In your company, some of the budgets are allocated equally over the accounting period and some are allocated irregularly to coincide with different revenue cycles during festivals. The financial department of your company has budgeted USD 48,000.00 to each distribution center towards travel expenses. The expenses are distributed equally for all the months in the year, except during festive seasons, which has an expected increase of 9% for the year. In Microsoft Dynamics AX 2009, what budget setup must be done for ledger account travel expense to achieve this?

- A. Settlement terms must be set up.
- B. Allocation terms must be set up.
- C. Cash flow forecast must be set up.
- D. Period Allocation keys must be set up.

**Answer: C**

**Question: 4**
