
Microtrance 1.3

The simple front panel defies the complexity that's under the hood, there is a bank of oscillators that are mathamatically detuned by non linear amounts to sound fat and analog, they are mixed in stereo through low pass filters, plus a host synchronized echo, arpeggio generator and nine selectable trance rhythms. The result is a simple fast to use instrument with a very wide powerful sound.

MIDI CC#

20 Fatness
21 Stereo width
22 Echo level
23 Rhythm select
24 Gate level
25 Env. Attack
26 Env. Sustain
27 Env. Decay
28 LFO level to cutoff
29 LFO Speed
74 Filter Cutoff Frequency
71 Filter Resonance
7 Output level
