DataAssist NetDoc AD Single Domain SE

Coaching and training in the field of Windows network administration today calls for a profound knowledge of Active Directory. DataAssist NetDoc AD Single Domain SE - an Add-In to Microsoft Visio – enhances thanks to a visual preparation of the AD Elements the comprehension of structure, functions and contents of an Active Directory. In addition, NetDoc AD Single Domain SE – which is based upon the successful DataAssist NetDoc AD - displays information that is difficult to access in an Active Directory or gained only with lots of efforts even when handled by a professional administrator. That information (for example: user group memberships) is again displayed graphically. DataAssist NetDoc AD Single Domain SE is available in education bundles with either 10 or 20 licenses included.

NetDoc AD Single Domain SE at a glance:

- Depiction of all user group members on selecting a group
- Smart and printable presentation of Custom Properties („Smart Callout“)
- Smart and customizable labeling of Shapes
- Drag and Drop function for easy presentation of objects and command structures
- Properties of Active Directory objects are taken over to Microsoft Visio
- All Microsoft Visio export and reporting features are available
- Work in virtualized environments such as Microsoft Virtual Server 2005
- "Verified for Microsoft® Windows® XP"

NetDoc AD 2.0 SE: Five Good Reasons

1. As a consultant, you are able to – thanks to the NetDoc 2.0 SE Edition – easily and quickly visualize complex structure of Active Directory objects and Containers.
2. Workshop participants may – thanks to the simple and intuitive Drag and Drop feature of NetDoc AD 2.0 SE – single-handedly discover and explore Active Directory structures.
3. Workshop participants will not be glutted by information (in e.g. large seminar networks) due to a limitation of the scan depth to 50 objects and containers.
4. Using NetDoc AD 2.0 SE is secure because no changes can be made to your seminar network by NetDoc 2.0 SE.
5. Consultants using NetDoc AD 2.0 SE receive – within the scope of the classroom licenses – an extra CD containing lots of extensive help, examples and hints for seminars in form of comprehensive and comprehensible webcasts.

DataAssist NetDoc Product Family
