System requirements:

- Processor Pentium 4/AMD 1500 MHz or better
- RAM 256 MB or more
- Free disc space 35 MB of hard disk space
- Operating System Windows 95 to Windows XP/Vista
- Host Application Cubase SX/SL, Nuendo (1.5 or higher) or other VST 2.0 compatible host application.

Overview:

Based on our new SCS technology, PianoBoy VST offers you a realistic sonically beautiful acoustic piano for only 34mb of your hard-drive space!

The SCS technology combines sampling, convolution and synthesis techniques, to provide the most dynamic and natural instrument, without the need to use giga's of samples. With PianoBoy you won't wait forever for your piano to load, you won't have any RAM issues, and no hard-drive is too small to contain it!

With your PC or with your laptop, In the studio or on the flight- just sit in front of your piano and play!

Installation:

The downloaded package should consist in the following files:
PianoBoy.dll: The actual plugin file. You should copy this file into your vst plugins directory before being able to use it in your favorite vst host.
Crow PianoBoy.pdf: The document you are reading right now!

Operation:

PianoBoy is very easy to operate: Just press the keys!
