

# Turbo Site Builder - Step by Step Tutorial

In this tutorial we'll show you how to install the software and then how to create a website which you could then sell to lawyers and law offices.

## 1 Create a directory on your hosting account

Name	Name
admin	
css	
fonts	
frontend	
img	
index.php	
js	
send-email.php	

## 2 Upload all files

Name	Name
.DS_Store	admin
admin	css
css	fonts
fonts	frontend
frontend	img
img	index.php
index.php	js
js	send-email.php
send-email.php	

## 3 Access the admin area

### Installation : Create your Admin Login Credentials

Email	<input type="text"/>
New Password	<input type="password"/>
Confirm New Password	<input type="password"/>

[Proceed](#)

You can access the administration area at <http://www.domain.com/directory/admin> where as domain.com is your domain name and directory the directory where the files have been uploaded. Insert your email address and define a password for your login codes. Once done click to proceed.

## 4 Login

---

Email	<input type="text"/>
Password	<input type="password"/>

[Forgot your Password?](#)

[Login](#)

Enter your email address and the password you defined to login to the administration area.

Description

By default "Enable this page" is checked.

## 24 You can disable the display of this section

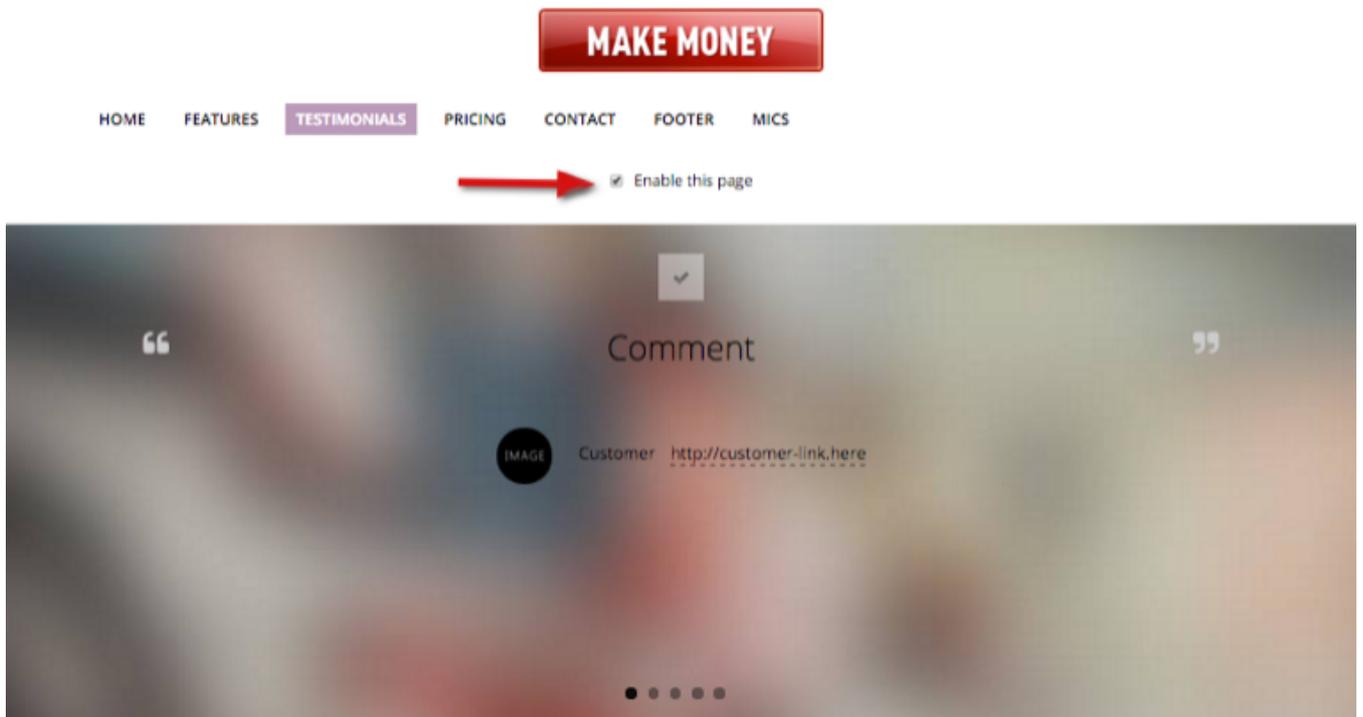

## 25 When disabled the Features' section won't be displayed online

We disabled the Features' section in this tutorial because such a section should not be needed when creating a site for lawyers. Watch the video tutorial that comes with the software to see how to use that Features' section, which is valuable when selling products.

## 26 TESTIMONIALS tab

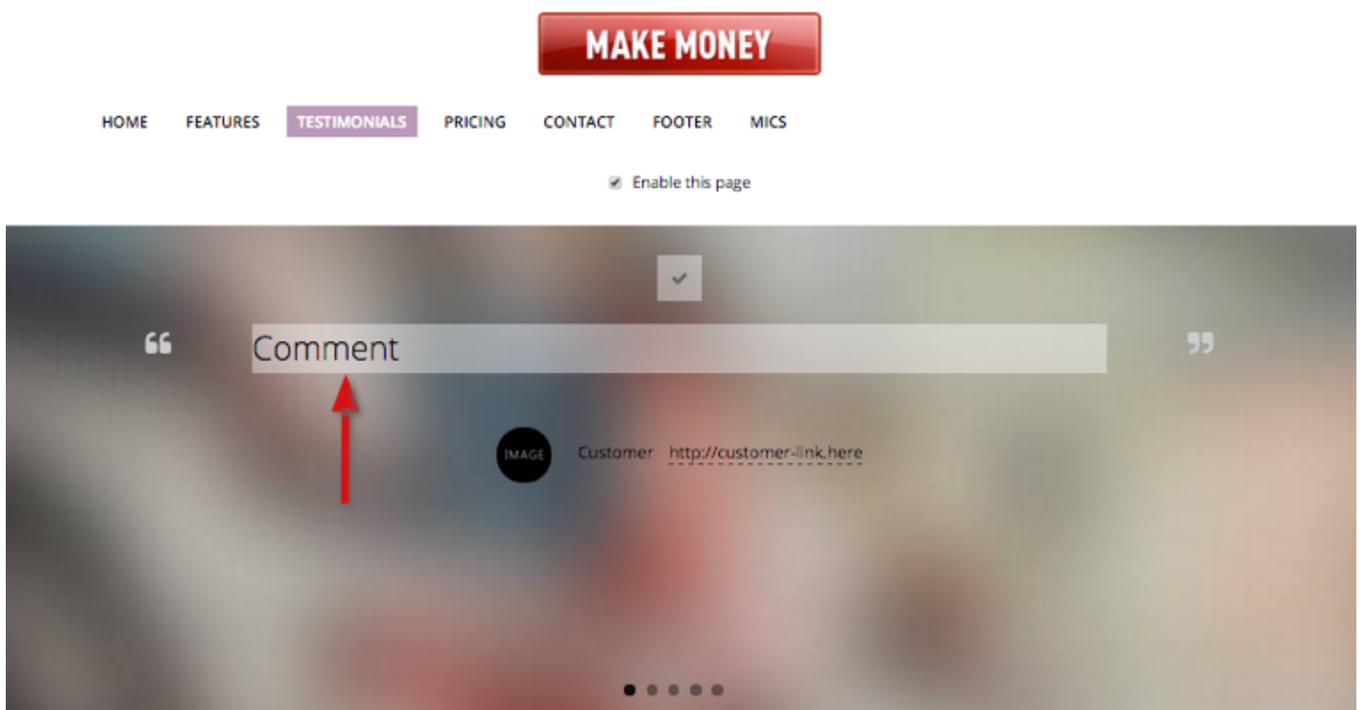

---

By default "Enable this page" is checked.

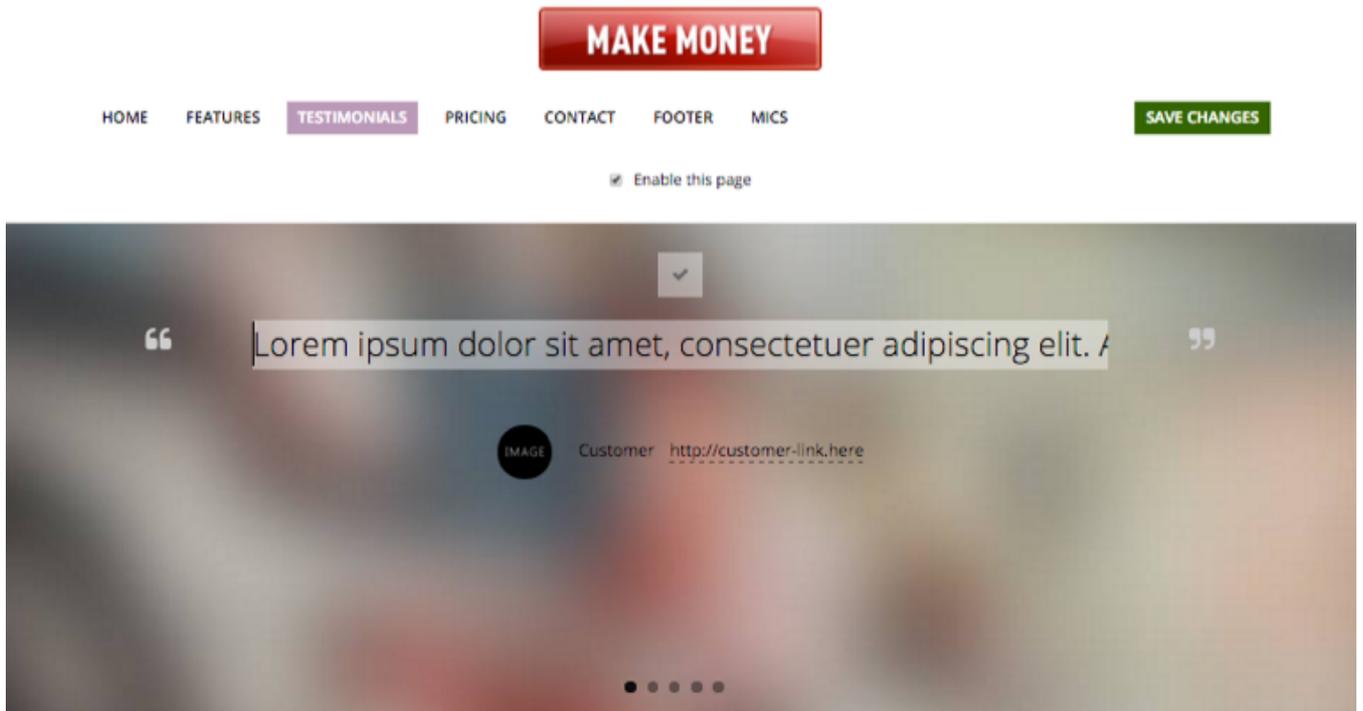

## 27 Click to add the text of the testimonial
